Mastering The Fire Service Assessment Center - Audio Book

Synopsis

This audio book identifies the key knowledge, skills and abilities required for success in the assessment center promotional process. Assessment centers are widely used by fire departments throughout the country. Unfortunately, many candidates fail to prepare for the test by failing to prepare for the position they seek. Whether aspiring to be a Lieutenant, Captain, Battalion Chief or above, this book gives the reader the tools to establish a personal plan for success in the test and in the position. Written in a humorous, matter-of-fact style, the material is easy to understand and retain. The reader is taught to truly prepare for the position and make the mental paradigm shift from test candidate to incumbent officer, which is a very unique and effective method. The book provides the reader with the tools needed to create his/her own plan for success. A personal self-assessment helps the aspiring officer evaluate his/her current status and leadership style. This baseline provides the foundation to get the reader asking questions about real-world scenarios that are mimicked in the testing arena. Features & benefits: Gain a better understanding of what an assessment center is; contains test exercises, sample problems, rating criteria, scoring sheets, assessor selection and common pitfalls; learn the 27 knowledge, skills, and abilities (KSAs) spanning the 3 dimensions of leadership, management and emergency scene operations; gain an in-depth understanding of how to develop their KSAs to succeed in the test and the position; professionally narrated by Keith Boscher; perfect for uploading to your MP3 player.

Customer Reviews

Just like i said about the book of the same title that i have, these audio books help me when i just

don't feel like picking the book up. I can ride down the street on my way to someplace and just listen to them. When I get home I can then go over and mark in the book what I may have heard or what caught my attention.

It is very important to be prepared for the extensive hiring process that candidates experience to reach a Full Time Fire Fighter Position. With competition at its peak knowing how to present yourself as an honorable well educated fireman is the key to success. The ability to listen to a CD during the day while taking care of obligations speeds up the prep time and takes away the sense of urgency trying to read a huge FF Book. Great Product to land the Interview no questions asked.

Excellent information. Would definitely recommend it to others in the Fire service
