Friends, Review for spanish Instant Immersion. this is the 3rd audio set I have bought from . I got Pimular. then some mexican spanish accelerated. Now this. it comes on a 18 cd course, which

seems HUGE. it seems designed to be sitting at a desk, with paper and pencil, so you can take notes and write stuff down. Well If I was sitting at a desk, I would have a computer and being going THOUGHT an online course, not just listening. so it seems like it was made with "20 year ago" thinking. I think most of this course is on youtube, so why read reviews when you can LISTEN for yourself. I find the woman talks really slow, no wonder its 18 cd's. could have been done in 9. So I listen in my car. and its almost to indepth for in the car listening. Unless you are able to give it 100%, then who the heck is watching the road?? I think Pimsleur did it the best. no extra talking, just spanish to listen to in your car. I would rank this as number two. Very much detail, but alot of work to listen and change 18 cd's. I think they might come on one with a MP3 format, but I have not listen to that yet. worst of the 3 is Mexican spanish accelerated. I would pick this before that. But punch this up on youtube, and see for yourself, get your own opinion and not mine. good luck with your spanish. Adios. Dr. Darrell of michigan.
