This book was required for one of my kids. The book came clean and she states it is useful and easy to follow. My Mandarin is non-existent so I can't speak to the quality of the writing. But the book itself is well made. It seems to progress logically. And maybe most important it looks like it will hold up for more than 6 months. It works well with the textbook though to my untrained eye they don't seem to correlate 100%. We will see.

This book is to be used in conjunction with the textbook 1, it has comprehensive character writing and different modes of exercises for students to learn the materials better. If your school can afford these I'd get one for each student, other wise scanning and printing isn't a bad option either. I recommend it with the teacher's book too if you are teacher!

I love this workbook! It is easy to learn mandarin, but you need to have the textbook too!! greaty recommend it

Good book but took too long to arrive
