Conversational Italian Quick And Easy: The Most Innovative And Revolutionary Technique To Learn The Italian Language. For Beginners, Intermediate, And Advanced Speakers.

Synopsis

Have you always wanted to learn how to speak Italian but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Italian, this book is not for you. However, if you need to actually hold a conversation while on a trip to Italy, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This method is designed for fluency in a foreign language, while communicating in the present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. More formalized training in conjugation, tense, grammar rules, and the like can all come later. This book is recommended for those with prior knowledge in Italian grammar and pronunciation. But for those who aren't there are grammar footnotes at the bottom of every page, as well as a section dedicated to the reading and pronunciation in Italian. But again this is not a grammar book! This book's sole purpose is to provide you with the tools to become conversational, in regards to everything else you are on your own! This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Italian Quick and Easy, all you need are fifty-three pages. Learn Italian today, not tomorrow, and get started now!

Customer Reviews

For someone who studied Italian for many years in the past, this book is an exceptional item. I found the approach superb and this technique can work for any language. I achieved fluency in conversational Italian in record time and so can you. Just follow this book's simple instructions, and you will be on the road to success.

This is not a phrase book. It's not a grammar book. It's not a beginner's book. So, what is it? For me it was a fun little read. Period. I can't say I learned much but I did have fun laughing at all the errors... Way too many and fundamental to attribute to typos.

This is a wonderful book for beginners. For those who seriously want to focus on speaking this book is for you. It is extremely informative, and as promised, this system will teach you the most common words in the language. Molto bene libro, grazie!!
