B Is For Burglar (A Kinsey Millhone Novel)

Synopsis

Finding wealthy Elaine Boldt seems like a quickie case to Kinsey Millhone. The flashy widow was last seen wearing a \$12,000 lynx coat, leaving her condo in Santa Teresa for her condo in Boca Raton. But somewhere in between, she vanished. Kinsey's case goes from puzzling to sinister when a house is torched, an apartment is burgled of worthless papers, the lynx coat comes back without Elaine, and her bridge partner is found dead. Soon Kinsey's clues begin to form a capital M -- not for missing, but for murder: and plenty of it. Winner of the 1985 Private Eye Writers of America Shamus Award and the 1985 Anthony Award for Best Novel. From the Paperback edition.

Customer Reviews

For years my friends have been telling me I should read Sue Grafton's 'Kinsey Millhone' series of Alphabet mysteries. I am not a great fan of mysteries, and I have to admit that the 'alphabet' thing, with each book starting with a new letter of the alphabet just all seemed far too twee for me. And then finally I read B is for Burglar - and loved it - adored it is closer to the word really - and read every other book of hers I could get my hands on. The mystery was satisfyingly complex, and Kinsey Millhone is a gem. The series is now up to O, and I am waiting (eagerly, anxiously, expectantly) for the release of the new P mystery in 2001. This book is set in June 1982 - and if you haven't read the first book in the series, you don't have to worry too much. The narration by Kinsey herself will quickly bring you up to date with the essentials of her life. Kinsey Millhone is a private

detective, 32 years old, single. Gloriously, she doesn't smoke, or drink heavily, or do drugs. She isn't a goody-two-shoes either, she really is quite ordinary, with a few of the usual hang-ups we all have. I liked that, because the focus is more on her mysteries than Kinsey coming to angst-stricken grips with her own failings (as often seems to happen in mysteries). Kinsey Millhone has been hired by Beverley Danziger to find her missing sister - Elaine Boldt. It seems like a pretty straightforward case. But as Kinsey delves deeper there seems to be something sinister below the surface. There have been sightings of her since she left her California apartment to head for Florida but nothing that seems to add up.
