The Longest Day: June 6, 1944

Synopsis

[Read by Clive Chafer] The classic account of the Allied invasion of Normandy The Longest Day is Cornelius Ryan's unsurpassed account of D-day, a book that endures as a masterpiece of military history. In this compelling tale of courage and heroism, glory and tragedy, Ryan painstakingly re-creates the fateful hours that preceded and followed the massive invasion of Normandy to retell the story of an epic battle that would turn the tide against world fascism and free Europe from the grip of Nazi Germany. This book, first published in 1959, is a must for anyone who loves history, as well as for anyone who wants to better understand how free nations prevailed at a time when darkness enshrouded the earth.

Customer Reviews

Famed author Cornelius Ryan has a unique and appealing way of telling a story that makes his books quite unique, and this huge best seller is no exception. Here he sets the stage for his brilliant trilogy on the war in Europe by chronicling the events surrounding the fabled Allied sea-borne assault in Normandy on June 6, 1944. Its total cost in terms of human life and unnecessary destruction is a cautionary lesson for history. Like his other books, this is a story told at every level, but concentrating on the faithful recollections of the actual participants in the action. Thus, the reader is wept into the action as we get a voyeur's view of the moment-to-moment development of the story as it unfolds in all its horrific detail. There is a virtual cornucopia of information presented here, and Ryan's approach is scrupulously faithful to the facts, all of them, regardless of the source. Therefore, there is a great deal of attention paid not only to the recollections and experiences of the

Allied assault troops, but to German defenders and French civilians caught in the terrible crossfire of the opposing forces. This was the book that originated the man-on-the-ground perspective that has been subsequently used to such advantage both by Ryan and number of notable others. There is little apparent effort here to color the results and make the Allies more circumspect and less provocative in making and activating their star-crossed assault.
