# Becoming An Intuitive Healer: A Professional Development Course For Health Practitioners

## Synopsis

Doctors, nurses, bodyworkers, and therapists have all felt it at least once--the uncanny "gut instinct" about what's ailing a patient or client. But what if there were a way to consciously tap this intuitive skill and make it a regular part of diagnosis and treatment? For over twenty years, Dr. Judith Orloff has pioneered the use of intuition in health care. With *Becoming an Intuitive Healer*, she now presents a full-length audio curriculum on the indispensable role of intuition in healing. When Judith Orloff opened her own psychiatric practice in 1983, she had every intention of keeping it traditional. Raised in a family of twenty-five rational-minded physicians and trained in orthodox medicine, she was taught that "visions were for crazy people"--even though she herself frequently had prescient dreams she didn't dare confess. It wasn't until she ignored an intuitive message about a patient's possible suicide attempt and nearly lost her from an overdose that Dr. Orloff determined that her practice was incomplete without the integration of intuition. Here is the culmination of Dr. Orloff's life's work: a complete program of practices to help us cultivate and offer our own intuitive abilities in the service of others. Designed for health-care professionals but accessible to anyone interested in this powerful healing art, this seven-hour course explores ways to tap into the body's subtle energy, intuitive empathy and deep listening, how to protect yourself from the negative energy of others, and much more.

## Book Information

Audio CD: 6 pages

Publisher: Sounds True, Incorporated; Unabridged edition (March 2007)

Language: English

ISBN-10: 159179546X

ISBN-13: 978-1591795469

Product Dimensions: 7.1 x 1.1 x 6.7 inches

## Customer Reviews

While listening to this CD program, I felt an opening of both heart and mind. The wisdom, and the specific instructions in these presentations, can be life changing to the person who is ready to

receive them. This is packaged as a professional development course for health practitioners. I am a lay person in that area, not a health care professional. Notwithstanding that, Dr. Orloff's program has added immeasurably to my awareness of how true healing works in the human mind, body and spirit. Ted Hilliard

Even if you are just a lay person, you'll find this "Professional Development Course" well within your area of interest and understanding. I have heard all of Dr. Orloff's tapes and this one is the best! Maybe it's because she is more experienced at lecturing or maybe it's because she is among her peers, but her delivery is more relaxed and funloving, even though she is dealing with the most profound and serious encounters in our lives and answering very difficult questions. She is clear, informative, humorous, and supremely heartfelt.

Judith Orloff had already caught my attention with her writings and I knew this CD set would be good. It was much better than good. I have listened to it over and over and over and still enjoy it today. I was in the process of setting up my Reiki practice when I began listening to it and it was exactly what I needed to read for extra inspiration. It is for healers and caregivers all, no matter what modality is practiced - from A to Z. She teaches thinking "healing" outside of the box and I love that. I would recommend this CD set to any caregiver that has patients or clients in order to open up to a whole new slant on healing.

This CD set is fantastic. Dr Judith Orloff is a genuine healer and teacher. Attending this conference, learning the techniques, and then having them eloquently transposed into this program is a gift for everyone. We can all learn from Judith's messages of listening from the heart how to be healers in our life, regardless of what our profession is. The teaching is clear, concise, and informative. I recommend this for everyone. If you are not in a healing profession, after listening to this CD set you will be more in tune with what your medical care could be and should be. Judith's teachings have changed the way I practice Pharmacy and Holistic Health Counseling!

Dr. Judith Orloff is one of my favorite doctors on the subject of intuitive healing. This is a great book even for non-medical professionals on the how and why of being an intuitive in a healing practice. I just loved this. Keep in mind that Dr. Orloff is still a licensed doctor as is Dr. Mona Lisa Schultz ... and this speaks volumes for their personal credibility and integrity. A wonderful complement to the Positive Energy book. Dr. Orloff is a teacher who is true to the Hippocratic Oath - Do no harm.

I am now retired from my profession, but found this information useful for living in general. Dr. Orloff presents the material in an interesting and entertaining manner. I find her to be very spiritual and sincere. Even those who are not in the health care professions, but who are striving to learn more about their own spiritual growth, will find this course rewarding. I have other books and tapes of hers and can recommend them all.

I really love Judith Orloff and have read her books. This audio was of a conference she held and I found it to be geared towards professionals who have no to very little therapeutic training in basic psychology. I also found Judith to be tangential and not as focused as in her books. If you already are a psychotherapist and want to expand your practice with intuition, I would absolutely recommend her book *Intuitive Healing* which covers the exact same topics in greater detail.

I have not finished these CDs yet, but from what I have listened to, I find them to be very informative and easy to listen to. I am a Reiki practitioner that has recently opened up her own business. These CDs will help me to be the best intuitive practitioner for my clients. These CDs are also helpful for me to learn how to stay clear energetically from my client's energy. I recommend these to anyone who is in a healing art. I feel these would be a great tool for Medical DRs to learn from to be more open minded and intuitive with their clients. Healing isn't about pushing medicines, it is about listening to the patient, learning about the patient and using the rational mind combined with the intuitive mind to help someone in need.
